(Teachings of the Cosmic Mystery School of the Omniverse)

Deep within Earth, at what would appear to be the IRON CORE to the Scientific Community of 3D consciousness, is actually a more etheric reality of the 13.5 Cosmic Consciousness. This etheric reality is the womb of our original reality. This is the frequency chamber where our Soul, our Frequency Signature that adapted its base pulse rhythm into the reality field of this planet, was created, has always existed and will always exist.

That Cosmic Core of Earth is the reality field that we feel to be the Mother Earth or Gaia. Earth is in reality three fields of reality in one time matrix. Earth is dimensions 1,2,3. Tara is dimensions 4,5,6 and Gaia is dimensions 7,8,9. These fields of consciousness have been disconnected over the eons, and now they are being reconnected.

Many who use the New Age dictionary think this Earth is Gaia. That just isn't true. When a few of us ascend in 2022 to Gaia, those will be living in Gaia. When several of us ascend to Tara in 2017, they will be living in Tara. Once those who ascend to Gaia realign into their 7th Level reality, they will once again be able to travel dimensionally between all three reality fields.

Our Earth's Core or Womb does contain the Heartbeat or the Base Pulse Rhythm that allows that transition to take place. The Heart Beat of Mother Earth is the base pulse rhythm of Gaia. It is our originally frequency of our original birth. Anyone who lives on Earth, had to at one time live on Gaia.

Everyone goes through an Involution process of descending from the Cosmic Matrix to the Universal to the Galactic and then into the Solar and Planetary reality holograms. We were all born within the reality fields of the Galactic Gaia and then came down into Tara. Tara's energetic fields were completely destroyed three times over millions of years, and caused us to become trapped within an energy prison of distorted energy fields.

Gaia is the entity who was born from Sun Alcyone. Sun Alcyone is in the Andromeda Galaxy--not the Milky Way Galaxy. Gaia has never been in the Milky Way Galaxy. However, a group of Angels created a Firmament -- a sphere of frequencies holding the Frequencies and Consciousness of Gaia, and placed that reality within the Core of this Earth that fell into the Milky Way Galaxy.

So, we are not living on Gaia. However, we can now realign into the Frequencies of Gaia through the Heart Beat of Earth. This Earth is Mother Earth. She is a Divine Entity, just like Gaia. However, she is an entity who has gone through Hell and Back, and her time is over.

On December 21,2012 we shifted into a new base pulse rhythm, a new heartbeat, a new reality. There are many Earths within interdimensional, multidimensional and Metagalactic

reality fields. The Earth that we used to live on, last year, is a different Earth than the Earth we live on this year. The Earth that we live on now is in alignment, in the space and time reality field of the 12th stargate. We are now in tune with the reality field that Gaia is in tune with.

This means, the Inner Core, Etheric Level 13.5 Density of Earth is carrying the Heartbeat or the Base Pulse Rhythm of our original Gaia. As we tune in with that frequency of consciousness we are singing in the new reality of the new heartbeat of love that is in tune with our crystal heartbeats within every spark within the quarks within the cells of our bodies. As our frequencies tune up more and more into that base pulse rhythm, the faster we tune in to our perfect Christic Template that we were created from.

This alignment with Gaia is necessary to create the alignment with Tara. Gaia remained in her perfect state within M31 spiritual twin parallel self and Universal Eka Veka System. Tara was blown up and blown out of that system, and was never completely restored.

Our Angelic Family had to go completely beyond the Earth's Matrix in order to restore our Spiritual Divine Blue Print. We had to be realigned and retuned into a completely new space and time reality. This reality that we are now in carries a new base pulse rhythm- or spin rate speed- than the old reality.

Those who have been raising their frequencies into atunement with the new reality have risen into Harmonic Universe two. There were some who died, but they were still taken to the new Tara in their rebirth. Those who have left our realm, are simply those who are still in the Old Earth's Time and Space Reality. We aren't there.

That doesn't mean that there aren't still a lot of people on Earth who need to tune up their frequencies before 2017, or they won't be shifted up to the fifth dimension. We are all in the Fourth Dimension right now. We have been placed in this space time reality field as a special gift from our Guardian Races. We were shifted thousands of years before our normal time in order to save our race from complete destruction.

The Earth--the New Earth that we live on Now, has within her, our perfect divine blue print of our original creation from Gaia, from Sun Alcyone, from the Source Divine Blue Print. When we align our consciousness into the Core of Earth or the Heart Beat of Mother Earth, we allow our frequencies to shift more and more into that divine reality field.

Those who remain on Earth and never tune in to that divine reality template, will not rise into Tara in 2017 or 2022. They will eventually awaken into the reality of their base pulse rhythm. They will be helped by the atunement into Inner Earth. The Guardians created another very special arrangement for us by aligning our morphogenetic template of Earth into Inner Earth at 4.5 For those who do not attune into the 5 dimensional frequency of Tara.

DNA SOUND WAVE ACTIVATION

CRYSTALAI (2013)

(Teachings of the Cosmic Mystery School of the Omniverse)

Our DNA sound waves were altered in a way that created a perceptual block of reality that alters the electrical impulse patterns of chemical and hormonal operation in the biological structure.

The frequency wave files that we create all utilize the aUM tone breath, which actually means returning to at onement with Source. It is the breath of atunement of co-resonate atomic charge that uses the key modulations to produce harmonies. This frequency breathing is consciously realigning the sound waves that were altered.

The density one body is the atomic body of the particle universe and the density two body is the elemental emotional body of the Crystal Grid. The density three body is the mental body that is outside of the physical body within the 27 inch radius from the crystal heart center in all directions. This creates the sphere around the Merkaba Body.

The Um tone of atunement into oneness with Source or the return to the original blue print of our rebirth is the frequency that radiates the atomic light radiation spectrum of density one through the sound frequencies of the density two body --the elemental body.

So, we are talking about something very etheric, something created from an atomic light radiation spectrum of heliotalic frequencies. This is the magical energy of Source. This is the energy that space ships travel occurs. The merkaba is the crystal ship space ship. When it is attuned to the three densities and the spin rate is correct, and the consciousness is raising frequencies into a higher reality, the merkaba body will translate the body into a new reality.

This translation is a gradual process. The more the consciousness is focused on the new reality and less and less on the old reality, the faster the translation occurs. However, if there is any of the old reality still in the consciousness, the merkaba will not achieve lift off. The manifestation of the reality and the Orbing into the reality are the same thing. If I keep my consciousness focused on Aquafaria long enough, my breath becomes more and more filled with helium just from focusing on that reality. That means just the focus on that dimensional reality is filling my cells and lungs with helium. This is the beginning of transposing the body to the new chemical structure of H₂O₂HE₃. This is the new bioenergetics field of our reality when we rise into the fifth dimension.

This teaching of harmonic alignment came to me long before I knew the scientific explanation of this Ancient Mystery School teaching. About fifteen years ago, when I was living in Japan, I used to walk around and sing into this tape recorder. I was being directed by my density two elemental consciousness, which is my oversoul consciousness. I was told to hold my consciousness in tune with the mind of God when I sing. The singing kept getting sweeter and

sweeter and more etheric. My density two family told me that when I became so focused continuously that my speaking and singing voice kept this alignment of frequency would be the time that I could ascend.

I worked with this process for years. Next, I purchased a professional recording studio and began singing layers of these breaths of Um over and over again on top of each other. I started seeing how there was this harmonic convergence between the layers of frequencies. The more I would hold my consciousness in direct alignment with the Mind of God and let God sing through me, the more harmonious the sound became. I learned that I was creating multi dimensional reality fields of density two sound together with density one atomic light radiation through my focused consciousness.

Next, I learned that I could sing any tone or word or even entire song and layer it harmonically and harmoniously without ever needing to use any special pitch. I was singing beyond the old theories of music that used notes and scales and staying in the same key in order to create harmonic relationships. I was creating key modulation through atomic energy of light and sound that was not do re me fa so la ti do. I was singing in the ka ha ra sa ta ha la kee ra shay ha sha spectrum of the Christic Atunement to Pre Sound and Pre Light. I was singing in pure frequencies of atunement. My singing was always in perfect pitch and it was in perfect pitch to whatever I sang because in the Divine reality everything is in tune with each other. From that time on, it didn't matter what song I chose to sing, the song always came out in perfect pitch. And I had no idea what Key I was singing in.

That magical formula of harmony that I had discovered was the key to restoring the electrical impulse patterns of the chemical and hormonal operation in the biological structure. I watched my body transform as I sang and listened to these harmonious breaths of consciousness. Later, I learned that after I spent hundreds of hours with the music on my head through earphones, my reality started shifting. I was completely within my head and the world around me started to dissolve away.

This was the exact formula that was given to Star Seeds to use at this time to alter our reality and shift into the fifth dimension. I was reactivating the 12 sub harmonic frequencies of ka ha ra sa ta ha la kee ra shay ha sha into my cellular memory, and I didn't even know it. I could see the results of what I was doing. But at that time I didn't have the spiritual teachings that explained this sound and light phenomena.

Now, that the 12 frequency signatures of our original race line have been implanted in the Earth's grids, the bioenergetics template of our bodies will begin to re activate the corrected biological structure. These frequencies that will be streaming through the Earth's grids will be just like those frequencies that were streaming through my cellular memory and reactivating my divine blue print. Now, we are being given two gifts, the understanding of how to use the light and sound frequencies, and these same frequencies becoming activated within the Earth.

Now, I can feel myself standing on top of this Earth with these divinely tuned grids. I feel so in tune, so harmonious, so free. I feel a complete transition in the energy fields that are streaming out of the Earth. I can honestly know and feel that I am not living on that 3D Earth that I used to live on. I am standing on a 4D Earth that is completely tuned in to Inner Earth and Tara. I feel my 5D body template electrifying through every cell in my body at the elemental emotional level and at the sound and light level, and at the crystal body level. I feel complete atunement with all three of these bodies. I feel a crystal light streaming through my skin and out about a foot out from my skin. I feel all buzzy inside. I feel a happiness tingle of

a brand new reality.

The corrected hormonal flows are supposed to pour energy that re-activates the eternal life flow of Source Consciousness within it through every hormone, atom and omnions within the elemental structure of the body. The body translates into a new biological structure. The old physical reality dissolves away.

This would allow the activation of the frequency specific DNA to perceptually activate Divine Reality of the desired kingdom of heaven on Earth.

The 12 sub harmonics of our original harmonic universe two Soul Matrix of Tara and Over Soul matrix of Gaia became disassembled codes that were locked away until we became evolved enough to regain them. Now is the time that our density two sound and density one light bodies are harmonized and attuned to Source. Now is the time we return home to the normal universe of Eternal Life.

That time has come. The frequencies of atunement into our Soul matrix are available now. However, most people still have so many distortions in their chakra templates, that they need to have frequency clearing done by qualified practitioners who have been trained in the light and sound teachings of Sound Genetic Restoration.

The atunement of frequencies during this widow of ascension 2012-2017 provides the opportunity to those who wish to align their energies 100% to the activation of their light bodies through Ascension Mechanics of the Merkaba, so that they can actually orb into Tara in 2017.

Once that first group advances our raceline into a new evolutionary potential, a second wave of masters will be ready to orb into Gaia by 2022.

Orbing isn't the only way to go to Tara; but it is probably the only way one truly becomes a master of Ascension. The frequencies of Earth are shifting into the 5D template. Those who do not orb into 5D by 2022 will be living in the 4.5 Inner Earth, which is really Tara. So, it is not like some won't make it. There will just be many who still need to practice their merkaba mechanics so they can enjoy Orbing around the universe. Some, will just choose to enjoy their ability to manifest any desired reality, so it won't really matter to them where they live.

The activation of frequencies in the Individual through their Eternal Life mp3 clears the individual's specific distorted areas in the DNA template that were placed there by fallen races. That genetic memory is still there because our body is the manifest template of all of the souls that existed before during the millions of years of race extinction, rebreeding, being raped, mutilated and restored again. All of those past distortions must be completely transmuted out of the cellular memory.

There are distortions in some people in the DNA 1, 2, and 3 that must be aligned into the original Divine Blue Print for healing and transformation. As the 12 sub harmonics restore the sound genetics, the DNA strands can actively begin braiding back to gather the 1,2,3 DNA into the 4,5,6 DNA. That is all that is needed for our first level of ascension into TARA. The next group of star seeds will activate 7,8,9 DNA and move to Gaia. The Inner Earth Race Lines who maintained their perfect realities will be ready to go on to the 10,11,12 DNA of CHRIST CONSCIOUSNESS.

All of these levels of DNA activation restores the ability for individuals to perceive a reality

that was not available before. The reality that was not available was multidimensional reality, realizing that we all live within Sun Alcyone, realizing that there is no time or space and the entire Cosmos is within a sphere that is only about 60 feet around us, realizing that we can manifest any reality we wish, or to any reality we wish, have complete dominion over our reality.

That reality is within our crystal genes. It has always been there. It was just unplugged and so we were asleep to its significance.

There is a responsibility involved in this re-activation process. Each individual must learn to become frequency specific in their own manifest reality. The frequency mp3's are to use to help hold the brain activity to become so focused in the mid brain that all past realities melt away. This requires continuous listening and focus. It requires continuous listening 48 hours a day for at least a month. It requires focusing deep within the cellular level into the etheric omnions of the levels far beyond where any microscope has gone. The spark of source holds the entire reality of the Cosmos. That reality is held within a place so small within each atom of our bodies that it is inconceivable to scientists. The omnions of the entire perfect kingdom fill every etheric fiber of our bodies from the inside of the blood cells, the etheric level of DNA, the light in the skin and the sound waves in the bones. The listener must continuously focus on that etheric level while listening to the frequencies to create a harmonic awakening within. Soon, the listener will hear the breath of Source singing through the bones and lighting up the skin and crystals will turn the blood into eternal life streaming through the temple that holds the Soul which will glow with heliotalic starbursts of pale, pastel violet, golden waves. Namaste,

Crystalai
