

CREATING MAGIC THROUGH THE MIND OF A CHILD

CRYSTALAI

cosmicdolphinmagic.ning.com

This world of love and light has always been here. We have just had our minds blocked from seeing it. Only black magic could block us from our Reality. That darkness has been transmuted into whiteness through the light of the highest frequencies of consciousness blending and uniting as One. White Magic reconnects our Consciousness with this reality of the Magic, the fantastic reality of the Co-Creators with the TINY. The elementals, the devas, the fairies and the angels are creating with us through the tiny elements and atoms and particles of crystal dust, gel and light. This grand new creation is being created right before our eyes. We watch it each morning as we see the hydrolaise restructuring the forms of water and oxygen into a purified form that breathes new consciousness into the Ocean and Streams. We watched our Monterey Bay become more Aqua Blue Each day. We see more and more from the Crystal Cities of Inner Earth coming out and merging into the Aquafarian Cities of Light. This is the merging of the Consciousness of Love into Oneness. They are creating a Harmonic Convergence Zone of Divine Love. My family of Aquafarians who live in both the underwater crystal cities of Monterey and in Aquafaria stream their light and love through braids of light energy streaming together particles of love and light in the atoms and electrons sparking, connecting, streaming, braiding the electronic circuitry of our original reality for us to remember once more.

They create as a child creates. They create through visions of the magical, through the communication with the tiny elves, fairies and devas, the tiny gelaisic snowflakes that weave together magic at a very tiny level. The crystal gel, the crystal light and the crystal dust are the elements of creation. These elements sing together with the atoms that they create upon. They sing and create through the magic of love. They create vortex upon vortex within our cells, our atoms, our atmosphere; and they spark and unite into a brand new creation every second of the day and every millionth of a second everyday.

These tiny little flakes of love are braiding and creating a fantastic world inside of us and around us. Now we must bring to life our Mind of a Child who can see this brand new reality. Our thymus gland in the center of the chest can now become awakened to see this fairy tale reality where we create the magical miracles of the original Atlantis creation. The spark of source sits right in back of the thymus. Ignite this spark by uniting consciousness with all realms of the five spheres. Merge Consciousness to unite with all selves from the past and future. Merge with all great entities of creation. Merge with Sunat Kumara, our Logos our Original Selfhood in Shamballa. Merge Consciousness with Sananda who has maintained our perfect selfhood in the Cloud Cities, Merge Consciousness with our Aquafarian Family who has maintained our perfect Consciousness in Aquafaria, Merge Consciousness with our Galactic Family in Aquarius, our Cosmic Consciousness of co-creativity include Zadkiel and his angels of creation, his devas, his fairies, his elementals are now ready to merge with our Consciousness so we can Co-Create the Divine Plan

as it has always been.

Your family will love enjoying the frequencies of these Cosmic Entities, Snowflakes and Dolphins through the holiday season. These frequencies lay the foundation for the family to begin creating their own Rainbow of Frequencies that will weave and braid into their Islands of Light.

We have had a veil put over our eyes, and our consciousness that hasn't allowed us to see this Divinely perfect Plan of Creation for a very long time. Now we can celebrate the availability of this Vision. This vision waits inside of us. We must breath the consciousness of this reality into our thymus from the spark of source right behind the thymus. The spark of source ignites and grows into a flame of consciousness and grows into a crystal sphere. This is the new Crystal Heart that our new Consciousness streams the co-creation through. This stream of consciousness extends from the Spiritual Body just behind the Crystal Heart, breathing the new Consciousness through into the Thymus. The Vision of the Fantastic can then be Imagined. As we allow more and more of the Galactic Suns to braid together their Divine Consciousness and stream that consciousness through our pineal area and our thymus area and through our tailbone area, the more we re-connect to the streams of consciousness of co-creativity. We breathe this consciousness into our vision. We see it growing in the thymus gland from the light of the spark. This vision is then taken up into the pineal area where the spark of source ignites again with the sun's consciousness and the spiritual body streaming liquid light consciousness through the center of the head into the eye of all seeing all knowing all acting all creating. This stream of consciousness is the light of the movie projector. The vision that is created first in the thymus and then in the third eye is then projected out through the center of the forehead as we breath the consciousness of co-creation out into our manifest new reality.

The Spark of Source grows into the Crystal Heart that has merged together the Consciousness of all entities of Love and Light. The Grand Entities of our Co-Creation. They are merging and blending their love and light into our Crystal Heart as we merge into all that they are. We merge into Oneness with their Minds, with their Love, with their all seeing Eyes of the Grand Reality. This love is accelerated as we spin our merkaba at the speed of light to merge with all that exists in all universes and galaxies as we spin our consciousness at the speed of light energy that connects to a star in every breath we take. We merge with the stars and the suns. We become a star once again. Mother Earth Becomes a Star Once again. Exhale all of the old realities from your consciousness. Exhale them into your Spiritual Body to be transformed into the new 12th dimensional Christ Consciousness. Wash out the old 3D Consciousness by realizing that it was once yours and now you are returning this old worn out Consciousness to be Re-Energized by the TINY Creators into a Brand New Creation. Exhale the old, return it to Source, return it to Spirit, return it to your Soul, to your higher self. Any of these higher Entities know what to do with this old belief of realities created from the dark nothingness. This nothing ness no longer exists. It can't be used to create from any longer.

We now create from the Light. We now create through White Magic. We now create with Zadkiels elementals, devas, fairies and angels.

We now create by weaving braids of love light and crystal particles of gelaisic snowflakes that pop and spark and glow and crystal dust the magical new reality. This new harmonic convergence of all of our selves, all of these entities of creation is the music of the spheres, the blending of all of the melodies into one grand symphony. This new harmony sings within our cells and within our minds as we allow the brand new pure angelic harpstrings to awaken our crystal cells into remembering who we are. We can feel this new love of all of our selves uniting and merging into oneness. We feel the frequency of love, the vibration of the tone of home, the sweetness of remembering who we are, we feel the vibration deep inside of us singing continuously. We feel the joy, the ecstasy and the glory of this purity of sheer silk energy streaming inside of us and through us streaming the consciousness of divine love into our minds and our hearts. The movie projectors of our minds radiates and glows as the perfection of our Divine Realities becomes projected into the movies screens in front of our eyes.

These Divine Realities begin to project through the eyes after the Frequency alignment is completed to become one with all Angelic Consciousness in all Five Spheres and ignited by the Spark of Source. The Ascension Kits prepare this alignment.

We live through the electrical circuitry of the liquid light streams connecting our hearts and minds to the galactic, the cosmic and into the Heart of Mother Earth where our Divine Reality is waiting for us to merge into our golden crystal dust body that we have become separated from and our Spiritual Body that waits right behind us waiting for us to re-connect in to.

We connect these flames through our crystal heart sparking and igniting and growing as it merges with the crystal heart of Mother Earth in Earth's Core, and with our Crystal Heart in the second sphere, third sphere, fourth sphere and fifth sphere. Our sparks ignite and grow and become twin flames - the spiritual and the physical merge into One. We reconnect to all we once were. We remember our glorious life, the essence our pure energy of creation that never gets tired and never grows old. We remember the glorious, passionate life of continuous creating through the purity of love, the energy of our devas, fairies an angels. We remember that we are these entities. We are the tiny.

We are the co-creators. We are everything that our higher selves of the Cosmic Creation is. We are the ones that allowed the Cosmic to be experienced as the physical. Now we become the physical that allows the cosmic to experience itself.

We now take our pearls of wisdom that we have created from this life on Mother Earth. We now take those pearls and melt them in the flames of the crystal heart that are merging our cosmic consciousness into the old physical experiences. This Cosmic Flame merges, melts and transforms these pearls of wisdom into a new

crystal dust, crystal light and crystal gel. The Cosmic begins to create the new realities through this physical form that has united completely with the Cosmic Consciousness of the Grand Creators.

We don't leave this world to Ascend. We merge our consciousness back into our real world where there is no separation from all of our other Selves--our past and future selves where they have remained in the White Magic of the perfect creation of instant manifestation through the divine principle of creation. Creating in Oneness with the Cosmic Consciousness. We become the co-creators of the Divine Plan as we merge our consciousness, raise our consciousness into the Harmonic Convergence Vortex that blends and unites all Consciousness into one powerful funnel of a brand new mind, a brand new day, a brand new reality. We walk completely into our FUTURE SELVES in our Islands of Light.

Our mission on Earth was to bring the Highest Frequencies to Earth through music. Our Cosmic Team has asked us to do everything possible to get these frequencies out to the ears of those who are needed to be on our team. We were told that you will know that you are being directed by the angels if you hear and sense these frequencies as their breath of consciousness speaking to you.

There is no more separation between the pearl of wisdom and the grandness of creation. These frequencies of consciousness, these pearls of wisdom melt into Oneness as the twin flames of the physical and the spiritual explode into the new Fire of Creation, the new ecstatic, boundless, fabulous, precious, glorious frequency of a BRAND NEW CREATION.

LUNARVISIONS has prepared the complete training for the transition into the Islands of Light. Our Island of Light has been prepared for us through our Starry Brother, Zorak. Zorak has created a perfect Star System that he aligns through our Consciousness wherever we stand on this Earth. The Star System transmutes the Planetary system into an Island of Light wherever one of his conduits stands.

In order to prepare for the training of these Islands of Light Schools, future residents of the Islands need a FOUNDATION of FREQUENCIES. They must understand Frequencies, feel Frequencies, speak to the Frequencies, who are our angelic Cosmic family. All of the Foundational Frequencies to prepare for this new school of the Islands of Light have been recorded into the Music CD's and Meditation CD's LINK to the Market page

Teachings from the Cosmic Mystery School of the Omniverse

NAMASTE,

CRYSTALAI

Sun Alcyone's Frequencies of Attunement

Crystalai (c) 2013

Ultra Violet Blue Sun

The significance of this Music is the Frequencies contained within it were taken from Sun Alcyone and the Blue Sphere of Amenti which holds the 12 DNA Divine Blue Prints of the entire Human Angelic Raceline. When Sun Alcyone does his dance with our Sun on September 21, 2013 those original frequencies, that I have recorded in the music already, will be braiding and streaming back into the Divine Core of Mother Earth.

ULTRA VIOLET SUN MP3 ALBUM contains Sun Alcyone's Frequencies of Attunement Please come EXPERIENCE the true adventure of the StarDust Alignment, Cosmic Plasma flowing to the Earth through the Light and Sound Frequencies captured in this Music. This Album was created by the Crystal Magic Orchestra as the great alchemists collected through consciousness the future event of the GREAT EVENT that will occur on September 21, 2013 when the Parallel Universes realign for the first time in millions of years allowing SUN ALCYONE from our Parallel Spiritual Universe to realign with our Physical Universe in order to create the ATTUNEMENT of the new HARMONIC CONVERGENCE of all Spiritual and Physical into AT ONE MENT or ONENESS. The frequencies have been collected directly from Sun Alcyone, the Breath of Source and the Elohim of Hearing leading a larger team of Angels who are designing this grand new Symphony of a new Harmonic Relationship of reality that can be HEARD and FELT through this MUSIC.

The Frequencies that will be heard allow this same alignment of Cosmic Consciousness to take place in the Listener's head as it is happening at the Universal Level and the Cosmic Level. The scientific explanation is an angular rotation and a pole shift that will take place as the alignment of Sun Alcyone and Earth becomes 90 degrees, attuning Earth back into the Reality of At One Ment with the 12 DNA Divine Template that we were created from within the Womb of Sun Alcyone millions of years ago.

That experience could be seen as an Omniversal Light Show by those in the higher realms. The Crystal Magic Orchestra is streaming the frequencies from that event through the Future reality that actually already happened five years ago in Cosmic Time. This Grand Event was recorded through the Cosmic Technology of the GrandeYanis of the PreSound Field and the Elohim of Hearing. It is my mission, that I took an oath to complete before coming to Earth, to record all of the Frequency Alignments and Transmissions through Attunement with Earth's Consciousness Field, so that these events will be saved eternally in the Acoushic Records of the Crystalai Council. I was trained to bring the Highest Frequencies to Earth through the Music of the Spheres technology.

This music album the Ultra Violet Blue Sun frequencies from Sun Alcyone weaving into the magical rainbowbridge of our multidimensional reality from the Blue Flame reactivating the Divine Blue Print within the Heart of Mother Earth allowing the fifth DNA strand to activate for all who are within Mother Earth's Merkaba. This is the first time the Holographic Beam of Tara will connect into the morphogenetic field of Earth and all who are in her field of consciousness. Sun Alcyone is the Sun who created the Star that was at one time long ago this Earth when it was a Star in the Andromeda 31 system. There was a grand explosion that we call the big bang. That explosion blew that star which was duplicated as Urtha, but known as Ajaho from the Andromeda 31 Galaxy into the Milky Way Galaxy. In reality, Sun Alcyone is

our Creator. Sun Alcyone holds the divine blue prints of our original selves that we were when we were the Angelic Humans from Gaia.

We -The Cosmic Mystery School of the Omniverse-- are the ones who were appointed on Earth to record the frequencies of all Entities as they attune and align during this great Re-Birth Project. We work together with the Elohim of Hearing in Gaia and through the great GrandeYanis of the Pre Sound Field. They magically translate these frequencies coming in through our Consciousness and Breath to be recorded as a permanent record in the Omniverse as the records of Crystalai Council.

The magic of these days is in the presound field, the anti particle universe, the etheric blending of the parallel universes of the particle and anti particle sound frequencies blending through the Music of the Spheres, which is the magical template of the Source Divine Blue Print.

You may now experience, feel and hear each of the Cosmic Activations that have taken place within our Universe and between the 12 Omniverses through the recordings available at cosmicdolphinmagic.ning.com.

Everything that has happened on Earth and between our Omniverse has been recorded for you to experience, as all of our OverSouls and OmniSouls are experiencing; and, is now available for all to hear. Frequency collections of Sun Alcyone making the first appearance as the ULTRAVIOLET BLUE SUN. Collections of Cosmic Frequencies, Intergalactic Frequencies, and every Interdimensional War of Frequencies, Alignments, Attunements. All of these Frequencies were created through the Pre Sound Grande Yanis for all in the Omniverses to remember forever as one of the greatest Cosmic Events ever Recorded in the History of the Cosmayas.

This music is playing now on our website.

When the angular rotation of 90 degrees occurs as a result of Sun Alcyone's direction, Earth and all who are upon her, will have their consciousness aligned into oneness with Tara, through Sun Alcyone. Sun Alcyone is in reality, the our true sun, and the eighth stargate of Earth. In reality, when our rotation of particle spin is correctly aligned, Sun Alcyone is in the Etheric Core of Inner Earth. Sun Alcyone is the Sun of Inner Earth. Soon, Earth will become Inner Earth and Sun Alcyone will once again be our Sun whom we live within.

Ascension means going within. Our first step, on December 21, 2012, was moving to the Inner Metagalactic Stargates. We moved to alignment with Stargate 6 - Sirius B. Next, on March 20, 2013, we moved into alignment with Stargate 8 - Sun Alcyone. Sun Alcyone contains our Universal Memory. All Suns of the Omniverses flow into each other.

Earth's fastest particles and anti particles can now begin to transfer to hyperspace and the halls of records begin transmitting data through the Earth's grids. Universal memory will begin transmission through planetary grids.

This week's recording of Sun Alcyone came through 55 stages during a 16 hour period. You will begin by hearing the eight frequencies that are now playing on our ning site. You may choose to listen to the entire 55 frequency waves on the mp3.

This music can be heard now on our website.

(Teachings of the Cosmic Mystery School of the Omniverse)

There are three very important things to know about how polarity is really removed and how it got here. Removing polarity has to do with the spin rate of the electron and proton and how it joins with it's anti-particle or etheric twin cellular structure. It has to do with the 12 subharmonic frequencies of the etheric or anti particle 12 DNA reconnecting to the particle DNA. It has to do with the Soul Matrix (sometimes called SuperConsciousness or Higher Self) of the 4,5,6 dimensions and DNA assimilates into oneness with the 1,2,3 dimensions or DNA. This is also referred to the Fission of Harmonic Universe One into Harmonic Universe Two.

The Soul Integration of the Soul Matrix from Harmonic Universe Two into the Body Template in Harmonic Universe One allows for complete removal of polarity through assimilation. Once that polarity of purpose between the lower bodies and the Soul Matrix is removed, the new advanced state of consciousness recognizes the plural nature of simultaneous existence in various space - time dimensional realities. Once the removal of polarity of the harmonic universe one and two is achieved, the entity begins the process of assimilating into the Harmonic Universe Three Over Soul Matrix.

This process is mostly about listening and being directed by the Higher Consciousness of ones own Soul Matrix. When this continuous listening is achieved, the Ego of the lower personality melts away into the Divine Mind or the Super Mind of the Souls of our Creation, containing the Wisdom and Experience, of all we have ever been and all we will ever be. The Soul Matrix contains the Archetypal Mind that knows itself as a singular identity that is composed of many identities who are a part of the Incarnational Soul, the race, the species, the mind networks of this universe and parallel universes. The 5D Mind is the re-cognizing to the Many that we really are. The neuro network reconnects to all that we have been in our past selves and what our greater purpose or true mission was that we set out to accomplish through those past lives. The assimilation into the Astral 4th, Archetypal 5th, and the Angelic Consciousness of the 6th allows the Communication Process of Star Language to begin. We will soon learn that our Souls live in the Stars. We were all once great entities who created stars and were stars, or who have lived within stars. A star is simply an Eternal System, while a Planet is a Mortal System.

Our logical mind has always relied on us drawing conclusions, and not allowing our emotional mind or intuitive mind to allow pure cognition. Our alignment with our Soul Matrix is the blending of the logical and emotional minds into a knowing and cognizing the full reality of the all knowing Divine Mind. We are getting re-cognized as we allow our frequency specific mid brain to guide us.
