Corresponding UTC (GMT) Friday, October 18, 2013 at 02:00

This same scenario applies to Nov 3rd.

**We are invoking Divine Intervention to assure the best possible outcome at Fukushima.
No matter where we are located on the planet, we are ALL being called into commanding
action now!**

THE DETAILS

This is a one hour transmission occurring during the full moon lunar eclipse on October 18th. Many people from around the world are joining the delegation team by simultaneously sending transforming energy.

This synchronized transmission will include calls for Divine Intervention, the building of a morphogenic field, and a special focused activity of light purposed to purify the nuclear contamination at Fukushima while forming a protective seal around the area.

We are connecting as one through the use of an audio transmission that will guide us through this process.

It can be done in the comfort of your home or other sacred space. This can be done at any time if you are not able to participate at 11am (JST).

PROCEED TO FREE REGISTRATION AND DOWNLOADS

This is a transmission with **Required Downloads!** These include an MP3 audio and PDF program of invocations.

Please download the required materials in plenty of time before the transmission.

Update From Kaori ~ Our Japanese Delegate

Dear Sun Family,

I have 3 people to go with me to the site. As it is a restricted zone, we needed to file the application for entry with the local government, and limited people can go.

My friend who kindly arranged the way to Fukushima also asked 100 Japanese to join this event.

I have also communicated this event in Japan and internationally and more than 10,000 people received this information.

However, for many of Japanese people, "prayer" may sound so private and spiritual. Majority of the people lost the custom to pray in their daily lives. Perhaps, some may still put their hands together before their family altar as the traditional routines.

When I was asked to do the transmission on site, I was just about leaving for Asahikawa, northern part of Japan by plane. I was trying my best to find the logistics and supporters with limited access. I returned with a bad cold, however I knew that I had to communicate this event as far as I can reach, so under that condition, I created [website](#) and FB page, did lots of research and have been communicating through several webs and e-mails.

So we will see, how many Japanese will join this event. At least, I have stretched myself and did the best I could.

Love and Blessings,

Kaori
