Selamat Balik! We come now to explain a number of events that are happening across your globe. The dark remains in retreat. Its secret officers are ready to surrender when so called on. Our various liaisons are concluding a series of private discussions with the diverse leadership of our earthly allies. These talks have set up a number of recent dates for concluding all the pre-landing events that are to be announced by new governance. The talks also set the date for the end to the UFO cover up and when we can formally broadcast our schedule to surface humanity. We are most anxious to conclude all that needs to be done before we can meet you. Our mentors are ready to begin a special interaction with each of you but this first requires that we give a few talks about what this mentorship is all about. Moreover, we need to briefly outline your history and how you fell into limited consciousness. We are your family and dearly wish to begin a way to return you to your former state of consciousness. In addition, we have technologies that can help you in this transition to a full consciousness lifestyle.

Full consciousness will open up a greatly enlarged reality—a reality you will easily be able to hear, smell, taste and sense. This reality includes not only your normal 3D scope but a number of other dimensions as well. This increased set of possibilities opens up a world that you cannot yet fully imagine! Our mentors' prime task is to prepare you for what is to come. This will include a large number of "hands-on" sessions where you can temporarily experience what is to come. Further, we intend to help this process when you tour our many motherships. We have educational tools on-board that can aid in your experiences of what you are to be. As part of this grand set of procedures, we will introduce you to your Inner Earth cousins, the Agarthans. The time approaches for the end to this great secret that the dark has long hidden from you. All planets and stars are hollow. Beneath the surface of Gaia is another world that has always been within the realm of full consciousness. This 5D reality is in fact larger than you can imagine.

This is why Gaia is to expand when your planet reunites as a full 5D reality. This expanded realm will also see the return of two moons that are three-fourths the size of your present "Moon." Each will orbit approximately 180 degrees apart from each other. Moving your present satellite will be accompanied by a series of talks

by us that will explain the true ancient history of your world. In this Light, you can better understand the convoluted mishmash that is your present set of philosophical beliefs. This is something that you need not treat as sacred, but realize it was simply a means used by your former Anunnaki masters both to deceive and manipulate you. This will be replaced by truth and a sense of what is really divine. Your Ascended Masters will give you an even deeper understanding of what it means to be both immortal and fully conscious Beings of Light. These facts will form a foundation that you can use to gain a sense of who you really are!

True identity is quite empowering, and it can provide a glimpse into what Heaven really is, and the divine relationship between the physical and spiritual realms. This sacred interaction is the prime mover for all of our social actions. You are to enter a realm filled with truth, ritual and special actions. We are both individuals and a collective. You will learn exactly how all things are one, and about the glories that transcend all realities. You will be able at all times to confer with your spiritual and physical guides. This is something that we hold sacred. You are to learn of this and discover how you can best interact. You each have a truly unique set of spiritual and physical relationships. These form the basis of our daily interactions within our galactic societies. Your mentor is to give you a slight "taste" of this, and realizes the need to prepare you for the beginnings of your new life as a successful galactic Being.

Namaste! We are your Ascended Masters! We come to you bearing most blessed news! You are very close to the changes that are finally to set you free. Our associates and those who help them to create the new financial system reached a fundamental series of agreements. These blessed ones

set the final dates for your sacred blessings to manifest. In addition, the scenario that will allow new governance to appear was also agreed upon. Consequently, you are now in the final period before the end of this most dark and difficult reality. The change in currencies, as well as the arrests that will occur, are to portend the rise of the Light and the transition to a higher state of consciousness. We are most joyous and presently ready ourselves for the public lessons that we need to give. There is much knowledge and wisdom that you can use to transition to this new reality. Our grand blessings go out to you!

As you receive, be ever aware of why this is happening. The dark cabal is losing its wealth while you are gaining yours. Divine purpose is in play. Hence, use these funds wisely and permit your brethren to enjoy the fruits of this new prosperity. Realize that a new reality is dawning and reflect on your new fortunes. Be ready, when required, to explain why new governance emerged. This will drastically change your lives on this world and is all part of the decrees in action issued in pure Love from the highest regions of Creation. You will receive messages not only from space families and us but also from your spiritual families. Your isolation is to end formally and be replaced with a great reunion of all that encompasses humanity in this galaxy.

We come as representatives of Spirit and express the Light and the Light that constantly abounds from on high! We wish to explain the grand responsibilities that will emerge from this great reunion. The living soul that is Gaia dearly wishes to return to her former glories and knows what your future tasks are to be. She is proud of all of you and wants to do her part in being the base for your most heroic and grand galactic societies. Much is to happen after you create this new star nation. Heaven decrees many things to us about those responsibilities we will take on as a collective. Indeed, the entire family of humanity expects great deeds from us! We are to bring joy and use these deeds to further the unfolding of Creation in all of physicality. We say this and shout Hosannas to the Lord Creator of us all!

Today, we carried on with our messages. As you can see, we are very close to what we all desire. The time comes for all to accept this new reality in glee and to understand fully what is expected of us. This great reunion approaches. Be ready to accept all that it implies! Know, dear Ones, that the countless Supply and never-ending Prosperity of Heaven are indeed Yours! So Be It! Selamat Gajun! Selamat Ja! (Sirian for Be One! and Be in Joy!)
