Jumping Timelines, False Flags, and Creating Paradise

I will explain. We communicate telepathically with our Masters on the ground. They envision the Master Plan with the combination of Heartmind and Soulmind, as we have called it, that creates a portal to Love energy from Creator/One. This includes all the love energy we feel as well. In combining this Love with the vision of Earthly Paradise which is our hope for the next phase of life on Planet Earth, they create that reality. It can now be experienced, linking the vision of an accelerated timeline with the current reality on the ground. This must be done in order to "jump the timeline" while keeping the continuity of experience for those on the ground.

You, Beloved Humans, are already in the flow of experiencing a greatly accelerated version of the playing out of those events which have been predicted for Earth. It was our great hope that all the glorious events we had envisioned in higher dimensions would come to fruition, but we could not predict dates with accuracy because we did not know how quickly the team on the ground would be able to assist in the leap from the slower, more tedious timeline you were on to something more positive. This was only possible for them, in turn, when all of you were able to raise the vibrations high enough for them to enact the timeline jump.

In other words, the chain of events begins and ends with all of you. When we have described the events to come, we always describe the most positive scenario, since our describing it and your envisioning it as a result of reading our messages is the first step in creating the new reality. We then watch and encourage you to raise your vibrations so that your ground crew will have the positive energy flow needed to lift all of humankind to the next higher timeline.
