

## THE THIRTEEN RAYS OF THE RAINBOW

We are working with the 13 rays of the rainbow. The Seven Rays through the Big Bear Ursa Major, the Big Dipper have now become Thirteen Rays as we move into the New Earth, higher dimensional Earth and open to our multi dimensional self.

The Seven Rays illuminate and spiral through you to the Earth.....As they move through your DNA and the Earth they awaken the six new rays.....All 13 rays illuminate from the Inner Earth Sun through you and activate the [DNA](#) within you that's now awakened and through the Light Matrix of Earth all one.....Ursa Major speaks of the Light that's always been there.....

The Seven Rays could only filter to humanity before as they were all they could accept. Now allowing 13 rays, as this is the frequency required to ground the 5th, 6th and 7th dimensional light matrix of wholeness within humanity who are open, and through the mother who sustains us.....There are many more rays and some are opening to those also. Once you are your body of light fully then they will be your passage of truly multi-dimensional liquid light plasma....

For those who have not opened their hearts or still run on ego to excess it's getting harder to operate in 3D and all our issues are in our face so if they have not been embraced in love then its getting ugly and so obvious. The Thirteen Rays are here to assist to embrace all this fear with love and acceptance, and previously we used golden light but now add the Thirteen Rays to the breath, as you breathe in and it will activate the RNA and into the DNA to awaken the divine aspects more fully and faster than ever before. For it is only by being really [connected](#) that we can move beyond all the duality dramas easily and with grace and peace.
