

THE LIQUID LIGHT GOLDEN PLASMA ACTIVATION OF THE GOLD LIGHT BODY

from the [Diamond Light Workbook](#) by Soluntra King

Liquid Light Plasma is beyond the more solid forms of matter; solid, liquid and gas, and opens us to the multi-dimensional realms and larger universes of omniscience and exists with anti-matter and dark matter as well.

By recognizing the higher dimensional cellular structures in your body now, as we all know, we are transforming from carbon to crystalline based and onto our Diamond Light Body. But what this means is that the light codes in the Etheric Blueprint that have lain dormant all our life and have not been activated in our body are doing so now as we need these awakenings for fully activating the DNA codes. The etheric DNA patterns of light are releasing Liquid Light Golden Plasma that is coming through from our higher dimensional aspects.

WORKING WITH THE LIQUID GOLDEN LIGHT PLASMA.

By being open to the Liquid Golden Light Plasma through your higher chakras and down through your central channel and into Earthstar chakra assists with the new Divine Blueprint.

To be open to the Golden Liquid Light Plasma from Source in divine will and unity consciousness is the gel that activates the latent DNA.

Connect First.

As the Liquid Golden Light Plasma flows down from the outer Source and Suns and into your energy field and bodies allow it to spin; whichever way or both ways it wants too in your chakras, one by one from the highest chakra first at Cosmic Gateway down through your central channel and the Universal Gateway, Stellar Gateway, Soul Star, Crown, Causal, Frontal, Third Eye, Throat, Thymus, Heart, Solar Plexus, Soulight, Sacral, Base, Link and down into the Earthstar below your feet.

You may find some chakras need it for longer than others.

Then be aware of Platinum Liquid Light Plasma coming up from the Inner Earth Sun up through your chakras and spinning through them up to Cosmic Gateway.

(This was Silver but since the [Ninth Wave Light](#) codes came in on 9th March 2011 at the beginning of the Mayan Calendar Universal Underworld it has changed to Platinum).

Once this is done allow the flow both ways, the Golden Liquid Light Plasma down and the Platinum Liquid Light Plasma up and allow the two to merge in their own way in each the chakras as it spins. Also be in allowing of your own natural flow, your higher self/soul has this all in hand, so best not try and control it.

Your own inner being will tell you when and how often you need to do this, but no more than three times a day, once is really enough in a day.

If there is resistance to it; then breathe into it with love and acceptance first.

Remember the Key is in you, in your heart and comes from your divine self that simply allows and loves and accepts all that you are, have been and well be. Too simple for most but that's it and the secret is in the breath.

NOW WE HAVE THE OPPORTUNITY FOR THE GOLD LIGHT BODY TO BE MORE FULLY ALIGNED WITH YOUR PHYSICAL BODY AND ILLUMINATED.

As your chakras are clear and flowing now connect into the Sun in your Heart and allow its rays to illuminate out through all of the cells of your body....As each cell glows and awakens to its divinity, alive, radiant and light.

As the radiant Sun, the Star that you are from the Source within you illuminates out through your Etheric Body, pulsating through the old tangled energies and dark blocks and fears. The old patterns of energy that are have been stagnant and now can flow freely as the Sun and Star that you are illuminates the diamonds of light through your Etheric Blueprint as they glow and clear.....Until your Etheric Blueprint is clear, all Diamonds of Golden Light.....As the Star that you are illuminates out through your emotional and lower astral bodies until they are clear, all sparkling golden light.....As the golden light from the Sun and Star that you are illuminates through your mental and causal bodies.....Out through your spiritual bodes.....One Gold Body of Light.

The codings of Light coming in now are to assist us to fully be our Body of Light and awaken our Divine Blueprint. When this will fully integrate is not known by me as it is an ongoing process and monitored by our higher self/oversouls and dimensional aspects as the

Golden Beings through the Greater Central Sun, Galactic Federation and Masters and Angelics, the Light that we are in our unified divine state. In this state we are in the Now, the shift is now.

We are in major exhilaration as you know and so the years of work and dedication that you have put in, is much appreciated and has assisted the collective conscious of those ready for this great event to be the Sun of our true self in your physical body, as the Earth becomes a Sun, our Sun a Central Sun and the Central Sun a Greater Central Sun, the graduation party was not possible without you, the Goddess God you are in clear Light. Thank you.
